

AR Collection HotFix #2

Issue: When creating documents from the Document Generation Screen XC.144.01 (pictured below) the screen was allowing the user to create a blank note.

Solution: Criteria was added to check if the new note field is blank. If so, the note will not be created.

Additional: A delete note button was added so that the user can delete the current note.

The screenshot displays the AR Collections Manager (XC.144.00) interface. At the top, the title bar reads "AR Collections Manager (XC.144.00)". Below the title bar is a menu bar with "Actions" and a toolbar with various icons. The main area is divided into several sections:

- Customer Information:** Fields for Customer (C300), Name/Days (School of Fine Art), Total (0.00), 31 To 60 (0.00), Contact, Attn, Current (0.00), 61 To 90 (0.00), Cust Mnt, Contacts, Phone ((555) 555-0120), 1 To 30 (0.00), and Over 90 (0.00).
- Note/Action Information:** A table with columns: Date, User, RefNbr, Contact, and Note. The table contains one row with Date 4/30/2008 and User SYSADMIN.
- Current Note (View Only):** A large text area for viewing the current note.
- New Note:** A text area for entering a new note.
- Action Buttons:** A grid of buttons including Show WorkList, Refresh Views, Add Note/Act (highlighted with a dashed border), Print Invoices, Email Customer, Open Letter, Edit Note, and Delete Note.

At the bottom of the window, a status bar displays the values 0060, SYSADMIN, and 4/30/2008.
