

LOCKBOX PROCESSING

SAVE HOURS OF TIME EVERY WEEK

Upload the latest Lockbox file from your bank, automatically create and apply the matched invoices.

Take your lockbox file from the bank and import it into Acumatica. Import scenarios are customized to fit your business specific requirements. Use the Lockbox application window to auto match incoming payments to your invoices in Acumatica. Matching is based on key fields such as: Customer Name, Description, Amount, Invoice Number, and more.

MANUAL MATCHING AVAILABLE

- There are times you need to have manual options: the matching is not correct, or a match was not found. Easily un-match records or use the document lookup to create a manual match on the fly.

QUICKLY FIND UNMATCHED PAYMENTS

- Easily find unapplied payments by using the “match type” filter, giving you a list to work with of only the items needing attention.

FINISH THE PROCESS

- Once complete, click on the “PROCESS ALL MATCHED PAYMENTS” button to easily finish the process and then release all AR Documents (Payments). Additionally, the Lockbox Payment Total should equal the Total App & Payments, and the Status of the Lockbox Batch is set to Completed.

The screenshot shows the 'Lockbox Payment Application' interface. At the top, there are navigation buttons: 'AUTO MATCH', 'MANUALLY LINK', 'MANUALLY UNLINK', and 'PROCESS ALL MATCHED PAYMENTS'. Below this, a summary section displays: 'Lockbox Payment Nbr.: 10000000', 'Applied Amount: 17,627.00', and 'Application Payments to Create: 17,627.00'. A dropdown menu is set to 'Completed', and 'Payments to Create' is 92.50. A red box highlights the 'Completed' dropdown and the 'Total App & Payments' value of 17,719.50. Below the summary is a table with columns: Matched, Match Type, Batch, Batch Item, Payment Processes, Create Print App, Create Payment, Create Prepayment, ABART# (with sub-columns for Check Link, App No, Payment Date, Invoice Date, Check Nbr, Check Amt, Customer), and Customer. The table lists several rows of payment data.

Below the main table, there are buttons for 'DOCUMENT LOOKUP', 'CREATE CUSTOMER DOCUMENT', and 'CREATE CUSTOMER UNAPPLIED PAYMENT'. A second table is partially visible with columns: Matched, Check Link, Branch, Customer, Customer Name, Type, Reference Nbr., Date, Due Date, Pay Amount, Write-Off Amount, Write-Off Reason Code, and Amount. It lists items like 'PRODWHOLE' for 'ABARTENDE' and 'BESTYPEIMG' for 'Bestype Image'.
