# CONCURRENT
Seamlessly integrate Concur and Acumatica to gain insights into your expenditure.

Streamline your invoice operations and enhance your expense management by digitizing manual tasks with **ConCurrent**, Crestwood Associates' integration application that seamlessly connects **Concur** with **Acumatica Cloud ERP**.

Acumatica is a comprehensive cloud-based Enterprise Resource Planning (ERP) solution designed to manage multiple business functions in an integrated manner, from financials and CRM to supply chain, and project management. Concur is designed to simplify processes in Acumatica to revolutionize your accounts payable journey and make it easier for businesses to track and manage employee expenditure. When these two systems are integrated, businesses can benefit from a streamlined financial workflow, ensuring a broader financial picture with ease.

ConCurrent data comes directly from Concur without any user intervention using Concur Application Programming Interface (API). Designed for flexibility and security, ConCurrent allows the user to define the data mapping fields from Concur to Acumatica. This easy-to-use mapping functionality ensures that users can configure data elements that fit in with your specific business requirements without costly custom development. ConCurrent also eliminates the need for your organization to manually download and manipulate files to integrate data between Concur and Acumatica.

KEY BENEFITS

Streamlined Integration
- Seamlessly integrates two systems eliminating the need to manually download and manipulate files between Concur and Acumatica.

Configurable Mapping
- Standard templates provided.
- Easily modify standard templates to your business requirements.

Plug and Play
- Automated features that reduce the need for extensive setup or technical knowledge.
- Smooth transition and integration into existing workflows.
