DATA ARCHIVING OPTIONS

Unlock the future of your business! Seamlessly transition from legacy systems to Business Central or Acumatica, all while retaining full access to your invaluable data.

PLAN 1: CRESTWOOD CLOUD

Benefits:

Say goodbye to the fear of losing detailed functionalities you cherished in your old ERP. We guarantee the complete transfer of your historical data.

Exclusive Offerings:

Crestwood Cloud Hosting for Dynamics GP/SL ERP:

Experience the cloud like never before.

Customized Hosting Solutions: We mold our services to fit your unique requirements.

Legacy Access to GP/SL: Dive into GP/SL with full capabilities, making it feel right at home on your device.

In-depth Reporting & Inquiry Tools: Get insights at your fingertips.

Adaptive Solutions: From catering up to 20 users to inquiry-only roles to single server hosting for environments with 1-2 concurrent users, we have you covered.

ODBC/Data Level Access: Craft custom reports tailored to your business needs.

Empower with PowerBI Gateway: Dive deeper into your data with advanced visualizations and analytics.

Investment Insight: Enjoy minimal initial expenses by leveraging our lift and shift to Azure. Do note, a marginal increment in monthly upkeep is present.

Suggested Path:

If you're searching for a solution that offers a sense of familiarity with minimal changes, Option 1 would be a perfect fit for you. However, if you're open to an initial commitment with the benefit of reduced monthly costs and a modernized approach, we recommend Option 2.

Rest assured, we will always highlight the benefits that best align with your specific needs and budgetary guidelines.

PLAN 2: AZURE DATA LAKE

Benefits:

Enjoy uninterrupted access to your invaluable historical data.

Exclusive Offerings:

Azure Data Archive: Transition your data effortlessly to Azure and bid farewell to tedious server maintenance.

eOne PopDock Product: Ready-to-use reporting solutions for diverse standard operations.

Integration with Business Central: Planning to move to BC? Let us flawlessly weave the reporting into BC, ensuring a smooth user experience.

Investment Insight: There may be a slightly elevated initial investment, particularly if numerous reports require archiving. However, the ongoing maintenance expenses are significantly more economical compared to Option 1 is the way to go.

Note: A preliminary setup will be needed for reporting and inquiries as the ERP client isn't directly archived. PowerBI and PopDock stand at promising choices for this endeavor.
